

Data Warehousing Lead

Job Description

As an experienced professional, you'll be seeking the right opportunity to grow your career. Here at Crimson Macaw we can give you the experience of working in a new fast-growing consultancy specialising in cloud, data and business intelligence. As we are ambitious and growing, your knowledge, experience and development are important to us and we will be supporting you every step of your career.

Being part of a consultancy, you will need to visit client sites and understand how we can help drive their success. We also support our customers' solutions and you will help with this.

Responsibilities

Be the technical expert responsible for the implementation and design of data warehouse and BI solutions.

Lead a team in producing high quality designs for data warehousing, ETL and reporting.

Help establish and define data validation, data cleansing, data integration, and transformation practices with the Head of Architecture.

Facilitate the collection of BI and data requirements from customers include reporting and visualisation need in conjunction with the Head of Data Science.

Make recommendations and guidance about data collection methods, master data management concepts, metrics, data definitions etc.

Enable design review sessions, testing cycles, validation and other post-deployment activities.

Mentor staff members.

Required

You will have a 2.1 or above in a numerate discipline or equivalent experience.

Excellent BI reporting skills (for example; Tableau, OBIEE etc.)

Excellent ETL skills (for example; Matillion, ODI, Talend etc.)

Excellent understanding of databases/SQL including MPP solutions.

Excellent understanding of dimensional modelling, data warehousing and the ability to mentor staff in and explain these concepts to non-technical customers.

Able to lead a team of developers.

Be highly numerate

Good English skills (both written and verbal).

Desirable Skills

Experience using Amazon Web Services.

The Package

We offer a competitive salary (based on qualifications/experience), plus bonus, pension and benefits (including a car allowance, private medical, Safari Books Online and gym membership).

We will support you in taking the AWS certificates, to evidence the knowledge and understanding you have gained whilst working with us.

How to apply:

Please apply by sending a CV and covering letter to jobs@crimsonmacaw.com.

Your CV should contain your working experience and skills etc. Your covering letter should express why you are interested in this field and any useful information that you think we will find relevant; this could be applications you have built, presentations at meetups, or anything else that shows your enthusiasm or work.

WE DO NOT ACCEPT SUBMISSIONS FROM RECRUITMENT AGENCIES AT THIS TIME

About Us

We are a growing consultancy specialising in the cloud, data and business intelligence. Partnering with Amazon Web Services, Tableau and Snowflake, we help our customers leverage the value of their data through quick to implement, scalable cloud technologies and market leading analysis and visualisation tools. We are based in the city centre of Manchester (M60 0AS) near Victoria Station and the Northern Quarter.
