

# Graduate Cloud Data Warehouse and Big Data Specialist

## Job Description

As a new talented graduate, you'll be seeking the right opportunity to start your career. Here at Crimson Macaw we can give you that start in a new fast-growing consultancy specialising in cloud, data and business intelligence. As we are ambitious and growing, your knowledge, experience and development are important to us and we will be supporting you every step of the journey, from a new graduate to an experienced cloud data warehouse and big data specialist.

As a graduate specialist, you will be helping our customers understand and structure their data, enabling them to leverage it as an asset. You will be shown how data warehousing, "infrastructure as code", serverless computing, visualisation tools and data science enables our customers' vision. This is a broad foundational role, that will allow you to specialise in a chosen interest as you develop.

Being part of a consultancy, you will need to visit client sites and understand how we can help drive their success. We also support our customers' solutions and you will help with this.

## Required

You will have (or expect) a degree, 2.1 or above in a numerate subject (Sciences, Mathematics, Computer Science etc.).

Excellent English skills (both written and verbal).

A high level of numeracy and analytical capability.

A passion for learning.

Able to work within a team and when necessary, independently.

Eligible to work in the UK

## Desirable Skills

Experience/Understanding of databases/SQL.

Experience in a programming language.

Understanding of cloud computing concepts.

## The Package

Basic salary of £20-35k, based on qualifications/experience, plus bonus, pension and benefits (including a car allowance, private medical, Safari Books Online and gym membership).

We will support you in taking the relevant certifications, to evidence the knowledge and understanding you have gained whilst working with us.

### **How to apply:**

Please apply by sending a CV and covering letter to [jobs@crimsonmacaw.com](mailto:jobs@crimsonmacaw.com).

Your CV should contain your working experience and skills etc. Your covering letter should express why you are interested in this field and any useful information that you think we will find relevant; this could be applications you have built, presentations at meetups, or anything else that shows your enthusiasm or work.

### **About Us**

We are a growing consultancy specialising in the cloud, data and business intelligence. Partnered with Amazon Web Services (<https://aws.amazon.com>), Snowflake (<https://www.snowflake.net>) and Tableau (<https://www.tableau.com>), we help our customers leverage the value of their data through quick to implement, scalable cloud technologies and market leading analysis and visualisation tools. We are based in the city centre of Manchester (M60 0AS) in the NOMA district near Victoria Station and the Northern Quarter.
